

# EMPOWER Partner Preparedness Sheet

This document is designed to help EMPOWER partners get ready to talk with employers.

## Some key questions:

How do we administer surveys, make reports and review the results with the employer if they want us to administer the survey?

What kinds of programs do our utilities provide that could support WPC installations?

Do we have the right contacts at all our utilities?

What local incentives are available to support WPC installations?

How do federal incentives apply to our area?

Are there any local code requirements regarding charging infrastructure that might be applicable to WPC installations?

What are some of the main equity concerns in our area?

Which companies can provide WPC solutions in our area?

How do we deliver employee education?

Where do we find EV owners to help us if there are not enough EV owning employees in companies?

What is our promotion plan?
